The design of these villas is modern and fresh. The horizontal lines, parallel to the sea, create a symmetrical shape, while the vertical lines break and give movement to the villa. Set on 2 levels, this spacious Costa del Sol villa is going to be built using only the finest materials throughout. Every single element, starting from the architecture that gives shape to the building up to the smallest design details, pursues the same philosophy and uses the same language. All the qualities we use into our houses are of the highest standards.

The design of this villa seeks to maximize the indoor-outdoor flow that is so essential for Mediterranean lifestyle.
